EU Data Act (“Connected Products” only)
The products of Bucher Hydraulics with local communication interfaces and functions record technical operating data as histograms (“Device Data”) directly within the product during operation. Further information on these locally stored Device Data and the means of access thereto is available on our website https://www.bucherhydraulics.com/eu-data-act[AS1] . By purchasing the product, the buyer confirms that, prior to the conclusion of the contract, they have been informed about the type, scope and means of access to the Device Data. If the buyer or user transmits Device Data to Bucher Hydraulics, the buyer hereby grants Bucher and its affiliated companies a simple, royalty-free, perpetual and transferable right of use to such data for any internal purposes (including statistical analysis, research, product improvement, services and maintenance, as well as the training of models, etc.), provided that any personal data, such as the name of the customer, is treated confidentially. Should this permanent and comprehensive consent not apply to certain categories of data, the customer shall notify Bucher accordingly. The buyer further undertakes to obtain the same consent from any subsequent purchasers or other users of the Bucher products prior to sale or use, and to pass on this clause. This provision shall remain valid beyond the term of this contract.
